STORAGE & HANDLING

Store tubes in a dry location to prevent damage to tube, take care when storing or handling to avoid bending or bowing the bars.

APPLICATION TEMPERATURES

When installing bars in cold weather, care should be taken to provide slightly larger gaps between bar sections to reduce the potential for bowing and buckling when warming occurs.

APPLICATION

- Standard personal protective equipment (PPE) should be used when installing fasteners through the bar into various substrates or when cutting the bar becomes necessary.
- Install bar on approved vertical surfaces at the top of the membrane to be terminated. Follow Mule-Hide's specific detail for the membrane type being terminated. Regardless of hole spacing, fasteners must be installed in all pre-punched fastening holes.
