EDGE METAL & ACCESSORIES
FOR SINGLE-PLY ROOFING SYSTEMS

“The name trusted in roofing since 1906”
SAVINGS
Mule-Hide edge metal and accessories reduce installation expenses and increase productivity. Our wide assortment of standard and custom-fabricated products are quick and easy to install, helping to reduce labor costs by eliminating on-site metal fabrication.

QUALITY
Completed products are carefully inspected, a protective film is applied, and then they are shipped to the job site, ready for installation.

ENDLESS OPTIONS
We stock 24-gauge Kynar® metal finishes listed on our color chart on the inside back cover of this catalog. In addition to these standard metals, we also have specialized metals including:
- .040 and .050 Aluminum Kynar® Finish
- .040 and .050 Aluminum Mill Finish
- 16 oz. Copper
- 24-gauge Stainless Steel
- 24-gauge Bonderized (paintable) Steel

WARRANTY PROGRAM
Mule-Hide offers a variety of warranties for Commercial and Residential projects including material and system warranties. System warranties are available for commercial projects when installed in strict compliance with Mule-Hide’s specifications by a Mule-Hide Warranty Eligible Contractor. Residential projects may qualify for material warranties. Complete warranty information and requirements for the various warranties available may be found on the Mule-Hide web site at www.mulehide.com or by contacting Mule-Hide at 800-786-1492.

OUR PROMISE
THROUGH ONGOING INTERCHANGE OF EXPERIENCES WITH CONTRACTORS, MULE-HIDE KEEPS ON TOP OF THE LATEST ROOFING REQUIREMENTS AND SOLUTIONS
Trusted in roofing since 1906, Mule-Hide is the right choice for all kinds of installations. Our time-tested and proven systems are affordable and easy to install, and they meet even the strictest demands of today’s commercial, industrial, and institutional buildings.

We can help you with everything from membrane selection to determining the best way to ensure a watertight roof. And because providing total roofing systems is our business, you can count on Mule-Hide to ensure the compatibility and performance of the components we provide with each system.

SYSTEM BENEFITS
FASCIA

1-3/4" AND 4" FASCIA COVER
- End-notched for trouble-free piece-to-piece docking
- Use with 1-3/4" and 4" vinyl fascia bar
- Pre-mented inside and outside corners are ready to assemble
- 1-3/4" Fascia Cover FM Approved 1-990
- 4" Fascia Cover FM Approved 1-825
- EPDM, TPO and PVC available in Kynar® Colors
- Meets ANSI/SPRI ES-1 RE-2 testing requirements

For 24 ga steel cover: 1-3/4" Average Achieved Pressure (AAP) 1160 lb/ft²  
 4" AAP 990 lb/ft²

For .040 aluminum cover: 1-3/4" AAP 300 lb/ft²
 4" AAP 300 lb/ft²

4" FLEX FASCIA COVER
- Pre-notched grooves allow fascia cover to easily snap over radial surfaces
- Can be installed on both inside and outside radius edges
- Use with 4" vinyl fascia bar
- Available in 10’ lengths
- EPDM, TPO and PVC available in Kynar® Colors

2-PIECE SNAP-ON COMPRESSION
- Secures membrane while providing an aesthetically pleasing finish
- Pre-mented inside and outside corners are ready to assemble
- Available in 10’ lengths; 3” through 8” widths
- 4” 2-Piece Snap-On Compression FM Approved 1-360
- 6” 2-Piece Snap-On Compression FM Approved 1-135
- EPDM, TPO and PVC available in Kynar® Colors
- Meets ANSI/SPRI ES-1 RE-2 testing requirements

For .040 aluminum cover w/24 ga base: 9” AAP 233 lb/ft²  
 11” AAP 153 lb/ft²  
 13” AAP 116 lb/ft²

2-PIECE SNAP-ON COMPRESSION LG
- Installs the same as a 2-Piece Snap-On with pre-punched holes in the base
- Pre-mented inside and outside corners are ready to assemble
- Available in 10’ lengths; 9” through 13” widths
- Call for colors available on EPDM, TPO and PVC
- Meets ANSI/SPRI ES-1 RE-2 testing requirements

For .040 Aluminum cover w/22 ga base: 9” AAP 233 lb/ft²  
 11” AAP 153 lb/ft²  
 13” AAP 116 lb/ft²
DRIP EDGE

- Provides visually appealing termination
- Profiles can be custom fabricated to meet most specifications
- TPO available in white coated metal with 6" attached skirt or without skirt
- PVC available in white coated metal with 6" attached skirt
- Available in Kynar® colors for EPDM systems
- Available in 10’ lengths; 2” through 6” widths
- Meets ANSI/SPRI ES-1 RE-2 testing requirements

GRAVEL STOP

- Provides a professional appearance while securing roofing membrane
- Available in 10’ lengths, custom sizes 3” through 8” pre-mitered inside and outside corners are ready to assemble
- TPO available in white coated metal with 6” attached skirt or without skirt
- PVC available in white coated metal with 6” attached skirt
- Available in Kynar® colors for EPDM systems

ECLIPSEDGE

- Easy fast install
- Cuts material and labor costs compared to conventional applications
- Eliminates the need for continuous clip when face dimension exceeds 4”
- Not sensitive to membrane thickness
- Eliminates need for fasteners and required flashing membrane on horizontal surfaces
- Can be installed with cordless drill
- Fastener holes are pre-punched to ease installation
- Pre-notched for easier overlapping during installation
- Overlap design eliminates joint covers
- Metalwork is automatically included in a Mule-Hide labor and material warranty
- Eliminates the need to measure and fabricate copings (Requires a return trip to complete the job)
- ES-1 compliant
- Lower installed cost solution for raised roof edge/gravel stop and coping caps
T-EDGE
• Combines the functionality of the drip edge and the professional finish of fascia covers
• Consists of splice plate, Kynar® finish T-Edge metal base and hook strip
• TPO and PVC hook strips come with an attached 6" skirt that connects the extended eave of the T-Edge
• TPO available in white coated metal with or without skirt
• PVC available in white coated metal and skirt
• Pre-mitered inside and outside corners are ready to assemble
• Available in 10' lengths; 2" through 8" widths
• Meets ANSI/SPRI ES-1 RE-2 testing requirements

T-EDGE PLUS
• Combines the functionality of the drip edge and the professional finish of fascia covers
• Double-folded drip edge neatly conceals the hook strip
• Consists of splice plate, Kynar® finish T-Edge metal base and hook strip available in 23 colors
• TPO and PVC coated hook strip comes with an attached 6" skirt that connects the extended eave of the T-Edge
• TPO available in white coated metal with or without skirt
• PVC available in white coated metal and skirt
• Pre-mitered inside and outside corners are ready to assemble
• Available in 10' lengths; 2" through 8" widths
• Meets ANSI/SPRI ES-1 RE-2 testing requirements

ARCHED DRIP EDGE
• Provides a smooth finish that is an aesthetically pleasing alternative to traditional piecing
• Available in 5' through 10' lengths; 3" through 8" widths depending on building’s arch specifications
• PVC coated roof flange enables welding a separate skirt to both the flange and the installed roof membrane to provide watertight seal
• Available in Kynar® colors for EPDM and TPO systems
• PVC available in white coated metal
SNAP COPING
• Provides complete finish on parapet walls
• 6" concealed plate provides coverage for expansion and contraction
• No exposed fasteners
• Pre-fabricated inside and outside corners are available
• Available in 10' lengths; widths are customized to specifications (4" x 8" x 3" minimum)
• Available in Kynar® Colors
• Max. face of 6" and 16" meets ANSI/SPRI ES-1 RE-3 testing requirements

For 24 ga. steel cover: 8" AAP 196 lb/ft² 12" AAP 100 lb/ft² 16" AAP 108 lb/ft²
For .040 aluminum: 8" AAP 160 lb/ft² 12" AAP 108 lb/ft² 16" AAP 75 lb/ft²

CANTED COPING
• Ideal for parapet walls requiring water to drain toward the roof side
• Gives the same appearance of the snap coping
• Pre-fabricated inside and outside corners are available
• 6" concealed plate provides coverage for expansion and contraction
• Available in 10' lengths; widths are customized for specifications
• Available in Kynar® Colors
• Max. face of 6" and 16" meets ANSI/SPRI ES-1 RE-3 testing requirements

For 24 ga. steel cover: 8" AAP 300 lb/ft² 12" AAP 263 lb/ft² 16" AAP 270 lb/ft²
For .040 aluminum: 8" AAP 300 lb/ft² 12" AAP 296 lb/ft² 16" AAP 233 lb/ft²

FLAT COPING
• Provides complete finish to parapet walls
• Installed using a continuous face cleat
• Pre-fabricated inside and outside corners are available
• 6" concealed plate provides coverage for expansion and contraction
• Available in 10' lengths; widths are customized for specifications
• Available in Kynar® Colors
• Max. face of 6" and 16" meets ANSI/SPRI ES-1 RE-3 testing requirements

For 24 ga steel cover: 8" AAP 280 lb/ft² 12" AAP 263 lb/ft² 16" AAP 190 lb/ft²
For .040 aluminum: 8" AAP 300 lb/ft² 12" AAP 223 lb/ft² 16" AAP 226 lb/ft²

ARCHED COPING
• Provides a smooth finish that is an aesthetically pleasing alternative to traditional piecing
• Pre-notched lap joints provide proper water shed
• Available in 5' through 10' lengths depending on building’s arch specifications
• Available in Kynar® Colors
REGLETS & COUNTERFLASHING

- Provides extended watertight protection along wall termination
- Shields fasteners from elements, preventing oxidation
- Custom-fabricated to specific projects
- Available in 10’ lengths

EDGE EXTENDER

- Used to extend perimeter edge widths
- Can be used with all edge details including gutter and coping
- Available in 10’ lengths; 3” through 8” widths
- Available in Kynar® colors

SCUPPER

- Offer watertight through-wall drainage
- Assembled with 24-gauge PVC coated metal only with a 6” skirt
- Available in white PVC coated metal only
CONDUCTOR HEAD

- Conductor complement the roof design and direct rain water into downspouts.
- Available in Kynar® colors

GUTTERS & ACCESSORIES

- Available in four standard profiles and three different sizes
- Gutters can be customized to meet specifications
- Inside and outside miters can be fabricated to any angle and ready to assemble
- Internal splice plates reduce installation time
- Available in Kynar® colors

CLOSED DOWNSPOUT
• Feature Pittsburgh seams
• Available in Kynar® colors

OPEN-FACE DOWNSPOUT
• Eliminate debris and ice blockage
• Available in Kynar® colors

DROP/OUTLET
• Securely attaches gutters to downspouts
• Can be custom ordered to meet gutter dimensions

SQUARE TO ROUND DRAIN ADAPTOR
• Transitions square downspouts to ground drains or downspouts

ELBOWS
• Available in 45° and 80° angles
• A-Style directs water away from building
• B-Style directs water alongside the building
PITCH PAN

- Prefabricated pitch pans deliver a watertight seal around rooftop protrusions
- Available in custom height and length and width
- PVC available in white coated metal with 6” attached skirt
- Available in Kynar® colors for EPDM systems without skirt
