

SL Base

Silicone Surface Leveling Coating

The Right Choice for Low-Slope Roofing Products

800-786-1492 • mulehide.com

Rugged • Time-Tested • Weather-Tested

Gravel Bur Obstacles

- Old option was to restore old gravel surfaces with asphalt emulsion type of products.
- Coat solely with coating, typically resulted in an expensive job due to the excessive coating required.

The Solution

- Using a self leveling silicone, SL Base, that is specially formulated to be less expensive than our roof coating, saving you money.
- SL Base is designed to be more free flowing than our roof coating, allowing it to migrate to the low parts of the roof and fill every crack and crevice.
- This complete coverage allows for a smooth surface and proper waterproofing performance.

Scope of Work on a Gravel Roof System

- Inspect existing roof system
- Remove all loose gravel
- Powerwash roof surface
- Perform a moisture survey and replace all wet material
- Identify and repair any problematic flashings
- Apply MultiBase SB bleed block primer
- Apply SL Base Surface leveling coating
- Apply 100% Silicone Roof Coating
- Inspect roof to ensure compliance with MuleHide Specifications

Original Gravel BUR Roof.

SL Base Surface Leveling Coating.

100% Silicone Roof Coating.
