Rugged • Time-Tested • Weather-Tested

## SA-APP CAP SHEET & SA-APP CAP SHEET FR

A premium self-adhering polyester reinforced modified bitumen membrane manufactured to meet the toughest code requirements of the industry. SA-APP Cap Sheet & SA-APP Cap Sheet FR are manufactured using Adeso® dual-compound technology, whereby the membrane consists of an Atactic Polypropylene (APP) modified asphalt compound on top and a pressure-sensitive adhesive compound on the bottom. The adhesive is covered with a split release liner. SA-APP Cap Sheet FR is finished with granules on the top surface, and features SEALLap® ULTRA side lap with self-adhesive compound for an instant bond, tested stronger than all other application methods and FASTLap®, granule free end lap. Each of these patented features provide for greater ease of application, as well as improved long-term performance. SA-APP Cap Sheet & SA-APP Cap Sheet FR are also used as a flashing membrane in all applicable specifications.

### BASIC USES

SA-APP Cap Sheet & SA-APP Cap Sheet FR membranes are designed for applications where the use of hot asphalt, cold process adhesive, or a propane torch is undesirable. Applications include new roofing, recover (retrofit) and BUR repairs. This system must be installed over an acceptable base sheet, roof insulation, or other suitable substrate. See the MuleHide Self-Adhered Modified Bitumen Application Guidelines for complete specifications and details.

Description	Thickness	Coverage	Weight	Carton
32' 10" x 39-3/8" (10m x 1m)	3.6mm (142mils)	100 ft²	89 lbs.	1 Sq. Roll
