

Description:

Prefabricated Pitch Pans deliver a watertight seal around rooftop protrusions.

- Three variations available: membrane coated metal with 6" factory welded skirt for PVC systems, membrane coated metal for TPO systems, and standard galvanized steel for EPDM roofing systems. All variations are fabricated from 24-gauge metal exact specification.
- 8" height minimum.
- Custom designs available upon request.
- Pitch pan is shipped with one corner open to install around existing penetrations.

Contact Mule-Hide to request a color chart, samples and information regarding custom metals and finishes.

Installation:

1. Install in accordance with applicable Mule-Hide detail.
2. Any deviation from the requirements set forth in the detail drawings must be pre-approved, in writing, by the Mule-Hide Technical Department.

Warranty:

Mule-Hide metal accessories are eligible for warranty coverage when properly installed as part of a Standard or Premium warrantable system. Please visit our Web site or call us for more information.

Technical Services:

Product samples, detail sheets, color chips, and color chart are available for your submittal package. For assistance with questions or submittals, contact your local representative or call Mule-Hide.
