

Product Data Sheet

MULE-HIDE MODIFIED BITUMEN GRANULES

PRODUCT DESCRIPTION

Mule-Hide Modified Bitumen Granules are high quality granules as used on our Mule-Hide granular surfaced membranes. These tough, dense, ceramic-coated particles are weather and UV resistant. Granules are permanently coated with pigment to match Mule-Hide membrane granular surfaced products.

BASIC USES

Mule-Hide Modified Bitumen Granules are used to cover areas of exposed asphalt, mod bit sealant or mod bit adhesive. Can also be used to conceal areas of bleed-out on torch applied systems. Granules are also used to help conceal areas of patching or repair where exposed asphalt or mod bit mastics would be unsightly.

COLORS

Mule-Hide Modified Bitumen Granules are available in a wide range of colors to match Mule-Hide granular surfaced membranes.

PACKAGING

50 lb. pail

BENEFITS

- Quality particles – strong, dense and non-porous
- Aids in prevention of damage from hail and environmental contaminants
- Available in a wide variety of colors

COVERAGE RATES

Coverage is approximately 4 square feet per pound (200 sq. ft. per 50 lb pail) depending on overall density desired.

INSTALLATION INSTRUCTIONS

Broadcast granules into freshly applied mod bit sealant, mod bit adhesive or asphalt bleed out. Granules may be lightly pressed into place if desired. Gently broom excess granules for disposal after sealant or asphalt has set up.

PROTECTION & SAFETY

Wear eye protection. Avoid creating dust. Take care not to distribute granules off roof when applying.

Mule-Hide maintains Safety Data Sheets on all of its non-exempt products. Safety Data Sheets contain health and safety information for your development of appropriate product handling procedures to protect your employees and customers. Mule-Hide's Safety Data Sheets should be read and understood by all of your supervisory personnel and employees before using Mule-Hide products in your facilities.

ADDITIONAL INFORMATION
