

Product Data Sheet

TPO Drop Scupper

Description:

TPO Drop Scuppers are designed to be used on circular residential outlets extending through the deck plane (only over unoccupied space) of the Mule-Hide TPO roofing system. Scuppers are prefabricated with an integrated skirt and metal fastening flange.

Features and Benefits:

- Fabricated in 24-gauge TPO-coated metal with a membrane skirt factory welded to the flange.
- Standard sizes are 2" and 3" round outlet configurations.
- Prefabricated scuppers provide a 3" fastening flange, and 6" skirt which eliminate shop or field fabrication and reduces installation time.
- Available in:
 - White, Tan, and Gray as standard colors
 - Medium Bronze, Patina Green, Rock Brown, Slate Gray, and Terra Cotta as Colorway options

Contact Mule-Hide to request a color chart, samples and information regarding colorway options.

Installation:

1. Install in accordance with Mule-Hide detail drawings #MHT-UN-513.
2. This product is **not** intended for installation over an occupied space.
3. Any deviation from the requirements set forth in the detail drawings must be pre-approved, in writing, by the Mule-Hide Technical Department.

Warranty:

Mule-Hide metal accessories are eligible for warranty coverage when properly installed as part of a Standard or Premium warrantable system. Please visit our Web site or call us for more information.
